We are pleased to announce that our VP of Intel Community Strategy, [Elizabeth Kimber](#), is profiled in the INSA "Get to Know your #IC" column on the INSA website and in their latest newsletter. According to Beth:

"To be successful in government and the private sector, it starts with treating everyone with dignity and respect; robust communication; teamwork; looking for win-win solutions; and to quote Ghandi: "Be the change you wish to see in the world."

-Elizabeth Kimber
