

We Make Voice and AI Go To Work For You!

Hi {{First Name}},

We're looking forward to seeing you at [TMC's Agentic AI Event](#), Sept. 29 – 30, 2025 in Herndon, VA.

We hope to connect at any of our two panel sessions:

AI Agents on Trial: Navigating Regulation, Liability, and Privacy in the Age of Agentic AI, and

Navigating the Agentic AI Frontier: Lessons from the Dot-Com Era

As AI agents transition from simple tools to more autonomous actors, the legal landscape is shifting beneath our feet. States are quickly drafting new regulations, but many questions remain unanswered. Are we witnessing the dawn of a new technological era, or just a new bubble? How can you make sure that your VoIP provider isn't adding to your liability concerns?

Our expert panels will tackle the most pressing challenges businesses face, including:

- **Liability:** If an AI agent causes harm, who is responsible?
- **Regulation:** How do AI agents fit into existing and emerging legal frameworks?
- **Privacy:** What are the implications of autonomous AI for user privacy?
- **Compliance:** Will your VoIP Carrier's compliance status jeopardize your business?
- **The Dot-Com Parallel:** What can the boom-and-bust cycle of the internet teach us about building a sustainable future for AI?
- **From Hype to Reliability:** Practical strategies for moving your AI projects from speculative ventures to resilient, reliable solutions that drive real value.

These are must-attend sessions for anyone looking to understand the risks and responsibilities of adopting AI. Come prepared to engage with our experts and get the insights you need to confidently navigate this new era. Or, [contact us](#) to schedule a discussion with us on these issues.

See you there,

Ken Stess

VP of Sales
